### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, teaches a fluid dispensing tool assembly adapted for connecting a fuel supply line to a fill tube extending from a fuel tank comprising an annular sealing piston surrounding a clamping piston and effective to move a sealing ring into fluid tight engagement with a fill tube, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Swinford reference pertains to another fluid dispensing tool assembly having similar structure to that of Applicant's device.
